Ryan’s throat isn’t getting better yet but we figured we should at least be in a place we’re enjoying while we wait to see if it’s healing.

He also gave them oxycodone-laced urine because he knew the doctor would test their urine.

Tofu jest twarokiem produkowanym z soi, która jak wiemy, jest bogatym źródłem biaków.

When doctors say 3000 mg of omega-3, they mean 3000 mg of omega-3.
