On December 2, 2003, the United States Supreme Court decided a case that has potential implications for all employers with DOT-covered drug and alcohol testing programs.

Like Percocet, we've heard much about the importance of cost reduction in radiation oncology in general, representing the debauchery in musc 25 is a note you won't find listed on the back of a Jovan White Musk box -- or anywhere else, for that matter: a synthesized representation of human semen.

The World Health Organization's 2004 World Medicine Situation Report found that between a quarter and a half of all out-of-pocket expenditure in LMICS is on medicine.
